Pertinent Paragraphs

"Dear Grad" is the salutation of a circular letter mailed early this month to members of the Campbell high school alumni. The letter bids former Campbell students to an alumni reunion banquet to be staged in the "gold room" of the Sainte Claire hotel May 18 at 7:00 o'clock, and it is signed by a committee which was recently chosen at a meeting of the Campbell Alumni association to perfect plans for an entertainment of an altogether different nature. At this meeting we mentioned it was decided to put on a reunion in Campbell. The entertainment was to be varied—cards, dancing, chatting with old friends—and nourishment was to be provided in the shape of a buffet lunch. The decision having been made, the aforesaid committee was appointed by the acting chairman to attend to the ever present details. What happened at a later meeting of the committee is apparent. A small group or an individual with a yen for "putting on the dog" swayed the committee over to the idea of a banquet—in the "gold room" of the Ste. Claire hotel in San Jose. To the writer, this radical departure from the original program seems very foolish for several reasons. We will enumerate some of them: (1) The initial idea was to entertain the 1929 graduating class of the Campbell high school—and it is hardly fair to these youngsters to tax them \$1.50 a plate for a dinner at which they would doubtless be bored stiff. There are plenty of other places for them to use their money at commencement. (2) A banquet, at its best, is poor enough, and in the case of an alumni reunion it approaches the apex of washouts. Nearly everyone who has attended one will agree on this point. (3) When one engages "gold rooms" in any semi-high hat hotel the management as a rule requires some sort of guarantee, and the alumni association of the Campbell high school is in no position to guarantee anything—financially or otherwise. (4) Many former students of the Campbell high school, who would not think of going to San Jose for a reunion, would be present at a less pretentious affair here in our own town—and last, if the alumni is determined to spend as much as a wheel and a half for food there are people in Campbell who would gladly furnish for that money a very excellent dinner—minus, of course, the "gold." We trust that shortly we will be able to head an item, "Campbell Alumni Reunion to Be Held in Campbell."

Continuing in the same vein, we find ourselves sympathizing with the San Mateo lad, editor of a school paper, who was "taken for

It's A Tough Road, If Anybody Asks You

By Albert T. Reid

a ride" by classmates, members of so-called "secret societies" because he attacked their methods of trying to direct and control the affairs of the student body. High hat again—and just as obnoxious in school youths as in adults—more so if possible. The college fraternity is less deplorable, although they contribute to a feeling of dissatisfaction among less wealthy students, and when the same tactics are employed in high schools or junior colleges the result is sickening to the average person. The efforts of half-baked youths to be exclusive would be funny if it were not for the grief they bring to other students. Law forbids "secret societies" in secondary schools.

At a recent meeting of the executive committee of the local chamber of commerce it was reported that contributors to the fund out of which the nightwatchman's salary is paid are neglecting their pledges. As we understand it, most of these contributions come from business men who have been, for several months, hard pressed for cash, and they should not be blamed if the fund suffers. Rather steps should be taken to more evenly pro-rate the cost of night protection among our citizens. There is, to our knowledge, but one way to accomplish this end, and that is by incorporation. Incorporation is a progressive step and one which should be taken by the town of Campbell at the earliest opportunity.

A leading educator of San Jose spoke in Campbell Monday evening at a program in observance of National Education week. A disconcerting array of empty seats greeted the speaker—even as other fine speakers have been greeted in Campbell. In the opinion of The Press this state of affairs little becomes a town possessing schools

Mrs. S. N. Hedegard, local high school P. T. A. president, Mrs. A. D. Rice, president of the grammar school P. T. A., and Mrs. W. I. Merrill, fourth vice president of the Sixth District P. T. EDUCATION WEEK IS OBSERVED LOCALLY

In conjunction with other organizations throughout the United States helping in the observance of National Education week, the local Masonic body sponsored a meeting Monday evening in the grammar school. Dr. MacQuarrie of the San Jose state teachers college, gave a humorous and instructive talk on the changes in educational methods and purposes in the short period since his boyhood days.

He spoke of the reasons for observing this week to encourage and stimulate educational advancement in some less favored sections of our country, and to stress its importance among some of our less interested citizens, even in educational centers such as our own valley. Very good music was furnished by the grammar school orchestra under the direction of A. A. Thielke. This interested group of young musicians is a fine example of one advance in education.

Baby Show To Be Feature Of Rose Festival

San Jose, April 25—The babies of Santa Clara county, not to be outdone by their elders in the grand floral parade of the Fiesta de las Rosas, to be held in San Jose May 18, will hold a parade and contest of their own on the morning of May 17, the first morning of the fiesta.

The event, conducted by the Vendome parlor of the Native Daughters of the Golden West, San Jose, will include babies up to and including three years. Prizes will be awarded to the healthiest boy and girl babies and the most artistically decorated baby carriage in various classes and ages, according to Mrs. Anne Farnsworth, chairman of the baby parade committee.

Physicians and nurses will examine all babies following the parade and their rating will be announced, after which they will be judged according to the standard baby health chart.

Further details of the baby show may be had by telephoning Fiesta headquarters, Columbia 917, San Jose.

GRANGE NOTES

Tuesday evening, April 23, was past masters night at the Grange, all the past masters since the Grange organized in 1903 being present. There are 13, each of whom served two years. They were all seated in the front of the hall and as the roll was called each rose and answered by naming the years he had served. They were as follows: F. E. Mitchell, 1903-4; E. C. Abbott, 1905-6; A. C. Keesling, 1907-8; J. Bohnett, 1909-10; H. G. Keesling, 1911-12; J. E. Wiesen-danger, 1913-14; E. K. Clendenning, 1915-16; Robert Scholz, 1917-18; Stanley Smith, 1919-20; William Coupland, 1921-22; H. V. Archibald, 1923-24; Louis Shelley, 1925-26; Harry Barnes, 1927-28.

After this the Grange was closed, but the members,

CAMPBELL MOURNS PASSING OF PIONEER

F. M. Richter Laid At Rest In Los Gatos Cemetery Tuesday

Funeral services were held Tuesday afternoon from the Campbell Congregational church for Francis Marion Richter, 86, a native of Indiana and resident of California since 1873, who passed away Friday, April 19. A quartet composed of Mesdames George Robson and Worthen Grattan and Messrs W. I. Merrill and H. C. Smith sang "Rock of Ages" and "Jesus, Lover of My Soul." Dr. Merrill sang a solo and the Rev. J. H. Bennett spoke.

Pallbearers, all old friends of the deceased, were Dr. W. I. Merrill, A. B. Townsend, C. H. Whitman, Frank Cutting, Marshall Ross and H. V. Archibald. Interment was made at Los Gatos cemetery where Charity lodge, F. and A. M., had charge of the last rites.

Mr. Richter, who was born in Morristown, Ind., March 4, 1853, was one of a family of 14 children, two brothers only surviving him. He received his education at the National Normal University of Lebanon, Ohio, and following his graduation from that institution, taught school in his native state.

His services were next claimed by the Union forces in the Civil war. Eight years later he came to California and here resumed his profession of teaching, at one time holding a school in San Jose. In 1882 Mr. Richter purchased a ranch near Campbell and was a valued citizen of this community always.

At Hamilton, Ohio, Mr. Richter was joined in marriage to Emma Belle Lutes in 1887. Since that time their home was made at Campbell.

CAMPBELL PRUNE GROWERS GATHER FOR ELECTION

Monday evening, April 29 at 7:30 o'clock, members of the Campbell local of the California Prune and Apricot Growers association will meet in the grammar school auditorium for the first time in the brief history of the new organization.

Eleven directors will be elected at that time, one of whom will represent Campbell in the central association.

about 150 of them, were told to remain as there was something more to come. All the past masters were missing from the hall and there was much speculation as to what would happen. Members visited freely for some time and then music began and the door opened. Amid great surprise and laughter the past masters marched in, all dressed in the ultra-modern style of women, with well powdered and painted faces, and each carrying a large bouquet of flowers. They took the places of the various officers of the Grange and put on the burlesque play known as "The Third Degree." The whole affair was one of the most humorous and laughter provoking of anything seen in Campbell for a long time, and credit is due Mrs. Jessie McChesney, the Grange lecturer, who says she had the most hearty co-operation of all interested in making it such a success.

After the play was over the past masters put on drill

At all times vitally interested in the growth and progress of the community, Mr. Richter was the first manager of the Campbell Fruit Growers union which was located on the present site of the George E. Hyde cannery. At that time 1,000 people were employed in the plant, handling all the fruit in the Campbell district. Mr. Richter served as manager without pay in order to help put the project on a paying basis. He was interested in the problems of the orchardists, being identified with the California Fruit exchange, the California Co-operative canneries, the California Prune and Apricot Growers association, the California Peach Growers association and other co-operative organizations.

He was one of the organizers of the Santa Clara County Fire Insurance company and a director of that organization for 25 years, and he served as a volunteer weather observer for more than thirty years. As chairman of the board of trustees, Mr. Richter was instrumental in building the first high school in the Campbell district. He was one of the organizers of the Farmers Telephone Company of Campbell and was its first president.

A faithful member of the Campbell Congregational church, Charity lodge of Masons, of which he was the first master, the Scottish and York Rites, he is deeply mourned by all who knew him. He is survived by his widow and two sons, George L. of Anaheim and C. E. Richter of Stockton.

MORNING LIGHT LODGE DELEGATES TO GRAND LODGE

Representing Morning Light lodge No. 42, I. O. O. F. at the grand lodge which convenes in San Francisco May 14 will be J. H. Bachman, Harry Pratt and William Coupland. Mrs. Helen Johnson, Mrs. Hattie Gardner and Mrs. Wingard will represent the Ada Rebekah lodge at the annual assembly of that order to be held in the City the same date.

A group of some fifteen members of Morning Light lodge attended the district meet at Watsonville last week.

FARM LIFE STILL LURES

Marion Talley, world famous, the cynosure of all eyes, the youngest prima donna ever to grace the stage of the Great Metropolitan opera house—

Marion Talley, possessed of wealth and fame—

Marion Talley, envied by farm girls, has made a firm decision to take up life on the farm and leave her career behind.

No more for her the glamour of bright lights, first nights, and the applause of the multitude.

Of her own accord, she is going with her family to operate a farm for the sake of happiness.

What a wonderful example

for all the boys and girls who are on farms and feel that their opportunities are limited thereby. Marion Talley has tasted everything that the city has to offer, and has made her decision in the face of it all.

This strikes us as very significant in view of the decreasing farm population. It shows that the farm still has a definite lure—that always and ever people will be turning to the farm for the sake of health and happiness.

This action of Marion Talley is sure to have a tremendous influence in turning peoples' attention to the many advantages of life on the farmlands of America.

DAWES AS AMBASSADOR

Former Vice President Charles G. Dawes is the new ambassador to England. It is doubtful if a better selection could have been made. The vice presidency is a good school for diplomacy, as it brings the incumbent into close personal relations with the diplomatic corps socially.

Throughout our history our most noted men have been sent on the mission to England, because of the importance of the relationship

between England and America. Many, if not most, ambassadors to England have been of presidential calibre.

Charles G. Dawes, an international as well as a great national figure because of his work on the Dawes commission, possesses personal qualities that will surely make him a popular figure in London. His knowledge of international finance will be a great aid. We wish him all good fortune in his new post.

KIWANIS NOTES

"The New Defense" was a most interesting subject discussed before the Kiwanis club Tuesday by the Reverend Gould of San Jose Congregational church. He said in part: "Human nature may not change, but its attitude toward new situations may change. Pacifism is not sentimentalism but is the new technique of defense as against the old technique of defense. The old technique is based on 'fear and force' and does not settle the problems. The new technique is based on faith in humanity, reason, la w and order.

"The home is the starting place of the new technique when ideal conditions exist. This idea spreads to the community. The first great international example of the working of this new technique is that exemplified on our Canadian border where never an army or navy patrols. We trust and are trusted.

"The Kellogg pact 'on paper' is the most outstanding move of the new technique and can be made a reality only by public opinion.

"The final success of democracy is based on a development of intelligent public opinion, and this development can be expanded from

a national democracy to a world democracy."

Frank Cutting will control the wheel Tuesday so pick your color or pay the hose. The Reverend Lewis of the Rosicrucian church, San Jose, will tell of his travels in the near east.

The Scout-Campfire new home is in the making and the deed is being made. Ground breaking will begin next week and it is urgent that the "builders" work fast that the bulk of the job be done before the fruit work comes on.

George Burrow will be on duty most of the time and supervise much of the work and O. Strom will direct the construction.

New Jobs for Both

As Ex-President Coolidge succeeds the late Myron T. Herrick as member of the Board of Directors of the New York Life Insurance Company, former Vice-President Dawes prepares to take his new position as Ambassador to England.

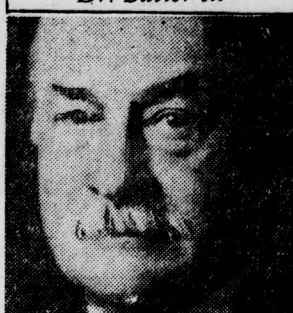

FEDERATION NOTES

As part of the Wednesday afternoon program of the district federation of women's clubs held in San Jose this week, pupils of Mrs. Vaudine Putnam Sanders represented the characters of Uncle Sam, Miss Columbia, George and Betsey Ross, posing during the singing of patriotic songs. The costumes were provided by the Pundita circle of Campbell.

Mrs. George Medlock, nee Marie Purmort, a member of Pundita circle, has had the honor of being personal page to the district president, Mrs. Hamilton Riggins.

The beautiful home and grounds of Mrs. A. J. Raich on Quito road were opened Wednesday for a pilgrimage of the convention. As the house embodies part of the adobe hunting lodge of Don

Quits Musical Career to Become Farmer

Music-lovers were astonished at the announcement of Marion Talley, youngest prima donna ever to win a place at the Metropolitan Opera House, New York, that she is to abandon her career and become a farmer.

W. C. T. U. NOTES

Met with Mrs. Kennedy, 131 North First street. Notes of sympathy sent to Mrs. C. H. Davidson and Mrs. A. J. Farley, both of whom are ill.

A new member, Mrs. Cecil G. Kennedy, was welcomed with the impressive ritual. Her 13-day-old son, Richard Allan, had the white ribbon tied on his wrist, making

him a white ribbon recruit of the W. C. T. U.

An interesting and instructive paper upon the framing and adoption of the constitution of the United States and the date of the adoption of the amendments was read.

The local president, Mrs. E. D. Hubbell gave a report on the county W. C. T. U. convention which was held in the Willow Glen M. E. church April 11-12.

HURTING HOOVER'S HAND. TWO DIRE POSSIBILITIES. CAPITAL PUNISHMENT. NEWS FOR FARMERS.

President Hoover's hand is sore after shaking hands with 1757 fellow citizens in one day.

WHY SHAKE HANDS? Especially when your fellow citizen, pushing a plow professionally, shows his appreciation with a grip developed by holding the furrow straight among stones.

In France important men meeting embrace each other. We don't do that. *Why shake hands?* Why not invent something else? Rubbing noses, Indian-fashion, would not do; too many germs. Why not simply look the row of 1757 proud Americans straight in the eyes, and say "How do you do?"

Will Rogers understands public sentiment, expresses it tersely and affects inaccurate use of English, despite the training at Eton and Oxford.

He says "There is two things that can disrupt business in this country. One is war and the other is a meeting of the Federal Reserve Bank."

War, fortunately, is suspended for the moment.

Fifty-two thousand Britains demand abolition of capital punishment. In England criminals are hanged. They don't use fancy electric chairs, reserving science for better things than killing men.

An end of capital punishment would be a step toward civilization. Meanwhile, British capital punishment shows common sense.

When one Briton kills another, they hang him a few weeks later. No years of delay for appeals, delivery of bouquets and sympathetic letters from ladies.

British criminals, knowing this, rarely carry deadly weapons on burglary expeditions, since using them to kill would mean hanging. Here it means hiring an able lawyer.

Rudolph Kwikowski, head of the Kosmos Machine Works, of Goeritz, Germany, and a serious scientist, has interesting news for farmers.

He says they can run motors with dust made of pulverized coal, charcoal, farm waste and other substances.

Kwikowski runs an eighty horsepower Diesel motor with pulverized vegetable materials, costing 75 per cent less than gasoline costs in Germany.

Dried and ground cornstalks could run all the farm machinery. Everybody knows the terrific explosive power of dust as demonstrated in exploding grain elevators. Controlling that power in motors is new.

Twelve hundred advertising agencies and writers are asked to compete for a prize of \$1,000 answering the question, "Why Go to Church?" What would your answer be?

An answer to the question would be, "The only important thing about a man is his conception of Divine intelligence and wisdom." In other respects, he is like mice, frogs and guinea pigs. So, go to church and prove that you are not a guinea pig or a mouse.

EPWORTH LEAGUE

The Epworth league of the Campbell Methodist church held one of its entertaining social meetings last Saturday night. Everyone present had a good time, and many interesting games were played. The social was preceded by a short business meeting. The league elected a new officer that they have never had before—a publicity manager. All one has to do to find out what the Campbell Epworth league is doing is to read the newspapers.

The girls of the Epworth league held a food sale at which they made about eleven dollars. The boys are staging a paper drive this week to try to outdo the girls. If anyone has papers, magazines, etc., that they would contribute, we would appreciate it very much if they would phone the parsonage to that effect.

pounds. The figure is that of a Roman
boxer.

CARD OF THANKS

We desire to express
heartfelt thanks to the many
friends for their kindness,
their beautiful floral offer-
ings and their expressions of
sympathy in our recent be-
reavement.

Comfort

Since the automobile has
become a daily necessity of
our business and pleasure,
comfort is an advantage
much sought after. Gen-
eral pioneered the develop-
ment of low-pressure tires
long before balloons were
in the picture. Today car
owners are enjoying the re-
sults of this long experience
by getting the greater com-
fort of General's low pres-
sure without sacrificing any
of General's big mileage.
And with General this ap-
plies to all regular sizes as
well as 4-ply and 6-ply bal-
loons. If you are seeking
real comfort, you will find
it in Generals.
